Evart Public Schools Return to Learn and Continuity of Services Plan 2022-2024

Evart Public Schools will continue to provide full, in-person teaching and learning which provides the greatest benefit to students. Ensuring that this can happen both consistently and safely during the upcoming school years, the Return to Learn Plan provides detailed guidance to ensure that COVID-19 prevention and mitigation measures are implemented in a way that fosters optimal learning environments while simultaneously ensuring the health and safety for students and staff in Evart Public Schools. This plan was developed with support from the Central Michigan District Health Department to ensure that all Evart school buildings have aligned and detailed a plan for a successful and safe return to school and learning environment.

Please Note: This plan may change and evolve as knowledge changes surrounding current and potential variants or if the risks of severe disease, hospitalizations, or death increase. The plan may also need to vary based on in-school COVID-19 activity and outbreaks. If such changes are necessary, transition time may be needed to allow the district or building to make adjustments to mitigation strategies. Periodically, but not more than every six months during the life of the grant, the plan will be reviewed and updates will be completed, if deemed necessary.

Supporting Documents: MDE and MDHHS "Managing Communicable Diseases in Schools"

MDHHS Readiness, Response, Recovery Cycle CDC Community Levels Mi Safe Start Map

The CDC will determine the COVID-19 community level for the county. Based on the community COVID-19 level, as determined by the CDC, Evart Public Schools, in consultation with MDHSS and CMDHD as necessary, will determine the number of mitigation strategies to implement to foster optimal learning environments while simultaneously ensuring the health and safety of students and staff.

The district will comply with any and all local, state, and federal mandates/orders.

The following plan outlines measures for the CDC COVID-19 Community Levels of low, medium, and high.

The levels do not apply in situations of COVID-19 outbreaks in schools, classrooms, or athletics.

due to isolation or quarantine. If a classroom or school is closed, all students impacted by the closure may be provided remote learning

opportunities throughout the closure.

Social	Distancing
--------	------------

Feasible social distancing measures will be put in place.

Additional Social Distancing measures may be provided as able. Adjustments to school procedures, schedules, activities, etc., may be made to adjust to the social distancing requirements.

Additional Social Distancing measures may be provided as able. Adjustments to school procedures, schedules, activities, etc., may be made to adjust to the social distancing requirements.

Health Screening

Parents/guardians should conduct a daily student wellness check prior to sending students to school.

DO NOT SEND STUDENTS TO SCHOOL IF THEY ARE SICK.

See the student illness section.

Student Illness

Parents/Guardians are not to send children to school who are ill per PO 8450 - Control of Casual Contact Communicable Diseases. Students exhibiting the following symptoms that are new or different/worse from their baseline of any chronic illness shall remain home or excluded from school or excluded from school until the student is symptom-free for 24 hours without the aid of medication or as indicated for their illness. (see https://www.michigan.gov/documents/mdch/Managing_CD_in_Schools_FINAL_469824_7.PDF)

- Severely ill (lethargic or less responsive, has difficulty breathing)
- Fever (temp over 100.4) or feeling feverish/chills
- Cough, shortness of breath
- Sore throat
- Runny or stuffy nose (congestion)
- Muscle or body aches
- Headaches
- Fatigue (tiredness)
- Vomiting(two or more times)
- Diarrhea (two or more loose or watery stools)
- Abdominal pain
- Rash with fever
- Wearing skin sores that cannot be covered
- New loss of taste or smell

Transportation			
Normal transportation operations will occur.	Normal transportation operations will occur. Additional health and safety protocols may be put in place as deemed appropriate. Additional cleaning and disinfecting procedures will be implemented.	Normal transportation operations will occur. Additional health and safety protocols may be put in place as deemed appropriate. Addition cleaning and disinfecting procedures will be implemented.	

Vaccinations

The district is not requiring staff or students to be vaccinated. MMDHD, MDHHS, and CDC recommend COVID-19 vaccination as the leading public health prevention strategy to end the COVID-19 pandemic as well as keep schools, extracurricular activities, and sports safely operational and in person

What to do with COVID-19 Isolation and Exposure 2023-2024 school year

I am SICK and/or I have tested POSITIVE FOR COVID-19

NOTE: Guidance is the same whether or not you have had any COVID-19 vaccines

ROW ONE	I have symptoms of COVID-19 and tested positive for COVID-19	At least 5 days* have passed since your symptoms started AND You have not had a fever for at least 24 hours AND Your symptoms are improving	Notify your school you tested positive	After Day 5* (starting day 6): • You can return to school • Wear a well-fitting mask for 5 additional days (day 6 through day 10)"
ROW TWO	I don't have symptoms of COVID-19 and tested positive for COVID-19	 Stay home until: At least 5 days* have passed since the day your initial positive test was taken If you do start to have any symptoms of COVID-19, GO TO ROW ONE (your 5-day isolation needs to start over with day 0 being the day symptoms started) 	Notify your school you tested positive	After Day 5* (starting day 6): • You can return to school • Wear a well-fitting mask for 5 additional days (day 6 through day 10)#
ROW THREE	I have symptoms of COVID-19 and didn't get tested for COVID-19 and didn't see a healthcare provider	 Stay home until: At least 5 days* have passed since your symptoms started AND You have not had a fever for at least 24 hours AND Your symptoms are improving 	Notify your school you are home sick and tell them what symptoms you are having	After Day 5* (starting day 6): • You can return to school • Wear a well-fitting mask for 5 additional days (day 6 through day 10)#
ROW FOUR	I have symptoms of COVID-19 and tested negative for COVID-19^ or got diagnosed with something else by a healthcare provider	Stay home until: • You have not had a fever for at least 24 hours AND • You have felt better for at least 24 hours (depending on your diagnosis)	Notify your school you are home sick and tell them what symptoms you are having and any diagnoses you were given	When you return to school: • Follow the current infection prevention recommendations

*For those with COVID-19, day 0 is the first day of symptoms (if you have symptoms) or the day your positive test was taken (if you don't have symptoms); for those with exposures, day 0 is the last day they were exposed # If you wish, you can also use antigen testing to see if you can remove your mask prior to 10 days. With two negative antigen tests 48 hours apart, done after day 5, you may remove your mask sooner than day 10. HOWEVER, if your antigen test results are positive, you may still be infectious, and you should continue wearing a mask and wait at least 48 hours before taking another test. Continue taking antigen tests at least 48 hours apart until you have two negative results in a row. This may mean you need to continue wearing a mask and testing beyond day 10 if you chose this path.

Aln a person with symptoms, a negative test is defined as (See COVID-19 Testing: What You Need to Know):

- 1. A negative PCR/molecular test, or
- 2. A negative antigen test followed by a negative PCR test within 48 hours, or
- 3. Two negative antigen tests performed within 24-48 hours of each other.
